General Cabell:

a. Reported that the [redacted] Committee is apparently back on 25X1 the track after a letter from General Erskine giving the Defense member some negotiating authority.

Mr. Roosevelt: Stated that the Embassy in [redacted] had recommended, and our staff had concurred, that [redacted] be invited to 25X1 the U.S. Mr. Roosevelt stated that the timing of such a visit 25X1 was bad and he strongly recommended that the invitation not be 25X1 extended at least until the constituent assembly is formed, and 25X1 preferably not until the new cabinet is formed. be a distinct parking problem involved. The Director suggested that there should be some way for the parking spaces to be paid for particularly for the lower grades and asked Colonel White to look into this.

b. Reported on the new building. Stated that it appeared that the Broyhill survey was going to be strongly in favor of Langley and that if this was realized, we could expect strong support from Broyhill. Stated he was optimistic about the Commission agreeing on the new building at Langley but felt that they might ask for more federal aid than our present plan.

Mr. Amory:

a. Said that he believed the American policy in regard to the placing of the atomic energy plant in [redacted] was over-playing our hand and that we had much to gain by favoring [redacted] 25X1

b. Reported that we may very well be in an embarrassing situation in East Berlin after the Soviet announcement placing East Berlin under the East German government. Cited the case of two soldiers presently jailed there. We may be faced with the problem of leaving them in jail or dealing with the East German government, which we do not recognize. Mr. Dulles said he believed we had some basis for requiring the Soviets to deal with us on East Berlin, but not on East Germany. In this connection, Mr. Dulles raised the question of what actions we would take if the GDR Police came into West Berlin and sat down. General Truscott undertook to discuss this with Defense.

c. Asked what position [redacted] could be expected to take 25X1 upon his return and the Director stated he believed his position would be adamant for arms assistance.

d. Said that the OCB Aid Committee appeared to be "packed" against actually having U.S. aid given to smaller countries. Stated there was a definite need for an intelligence man to be a member of this Committee so that he could advise the Committee from an intelligence viewpoint of the importance of aid or lack of aid.
